Hirat Rahman Rahi

Bloomington, IL | hrahi@iwu.edu | hiratrahi.com | github.com/hiratinspace | linkedin.com/in/hiratrahi

EDUCATION

Illinois Wesleyan University, **B.S. in Computer Science** *Dec 2027*

Key Coursework: Algorithms, Data Structures, Software Development, Database Systems, Discrete Math

PROFESSIONAL EXPERIENCE

IT Intern

Integrity Technology Solutions (*Managed IT services and cybersecurity)* Bloomington, IL | *Aug 2026 - Present*

- Support security operations and IT service delivery at a NIST CSF-aligned managed security service provider serving 150+ regulated banking and healthcare clients, working within HIPAA and financial-sector compliance requirements.
- Troubleshoot and resolve 100+ tickets across Windows 11 endpoints, Windows Server, and Microsoft 365 environments, including account provisioning, access issues, patching, and device setup.
- Monitor endpoint protection, security alerts, and patch compliance, and escalate suspicious activity following the firm's incident-response procedures.

Intern Analyst & Team Lead

Driving Forward (*Cybersecurity and AI readiness consulting)* Chicago, IL | *Dec 2025 - Mar 2026*

- Led a 4-member team benchmarking midsize companies' cybersecurity and AI readiness across 10 control domains against NIST CSF and ISO 27001, producing maturity scores on a 1 to 5 scale.
- Evaluated cloud, network, and data-security controls (Azure, Palo Alto firewalls, Microsoft Sentinel SIEM, Purview DLP) through framework research and leadership interviews; presented executive reports and roadmaps targeting gaps in DLP, vendor risk, and AI governance.

Intern Analyst

McLean County Government (*Data engineering and analytics)* Bloomington, IL | *Aug 2025 - Aug 2026*

- Built automated data pipelines and Tableau dashboards analyzing 5+ years of transportation and US Census data for the 2055 Metropolitan Transportation Plan; developed supporting websites for planning projects.

PROJECTS

Specter-AI, AI-Powered Penetration Testing Reconnaissance Platform **github.com/hiratinspace/specter-ai**

Python, Flask, Anthropic Claude API, SSE, dnspython, Apache-2.0

- Built a modular recon engine running four security modules (DNS and WHOIS enumeration, port scanning, HTTP probing, SSL/TLS analysis) in parallel, then feeding aggregated findings to Claude for AI-driven risk assessment and structured Markdown reporting.
- Shipped a real-time Flask dashboard with server-sent-event scan progress, report views, and scan history; designed a CLI with quick and full scan modes plus an offline no-AI fallback.

PassMyResume, ATS Resume Scanner & Internship Search (Founder) **passmyresume.com**

TypeScript, Next.js 16, React 19, Tailwind CSS v4, Neon Postgres, Better Auth, Stripe, Resend, Anthropic Claude API, Vercel

- Built and launched a live platform that parses PDF/DOCX resumes, scores them against job postings with a published, deterministic formula weighted across 12 fields, and ranks fixes by score impact.
- Built the internship search on an open-source PyPI scanner and MCP server (Interninbox) that pulls from 6 ATS job-board APIs and USAJOBS across 100+ companies, using a rate-limited, robots.txt-respecting fetcher.
- Designed privacy-first handling of personal data: resumes aren't stored unless the user saves them and are never used for model training; built a check that flags AI rewrites containing numbers, skills, or employers not in the original.

CTF & Hackathon Projects: Crypto-Solver, Conjure **GitHub**

- **Crypto-Solver** (Python): built an automated solver for CTF cryptography challenges; compete in CTFs across binary exploitation, web exploitation, and reverse engineering.
- **Conjure** (Python): built an accessible webcam mouse for people with disabilities in 16 hours at the U Mich hackathon.

LEADERSHIP EXPERIENCE

President, ACM Student Chapter: lead a 50+ member chapter hosting guest speaker panels and technical workshops, and organize team trips to hackathons nationwide.
Senior Resident Advisor, IWU Residential Life: directly mentor and support 28+ students in a house-style upper-division hall.
Founder & President, Billiards Club: lead 7+ board members running 10+ events for 200+ participants annually.
Titan Ambassador, IWU Admissions: lead panel sessions each fall for 500+ prospective students and family members.

SKILLS

Languages: Python, JavaScript, TypeScript, Java, SQL, HTML, CSS | **Spoken:** English, Bengali, Sylheti, Hindi
Operating Systems & Scripting: Windows 11, Windows Server, Linux/Unix, PowerShell, Bash
Cybersecurity: Security operations, incident triage, reconnaissance, penetration testing, reverse engineering, CTF competitions, NIST CSF, ISO 27001, HIPAA, DLP, DNS, SSL/TLS analysis, MCP and AI-agent security
Frameworks & Tools: Flask, Next.js, React, PostgreSQL, REST APIs, Git, GitHub Actions, Anthropic Claude API
